## Why Value Sheds?

Value Sheds are your best choice when shopping for a storage solution that needs to come in at a bargain price but delivers features normally found on buildings costing much more.

Value Sheds deliver a quality, good-looking building that will provide you with years of reliable service, whether you are looking for a place to store your lawn and garden tools, a pool cabana, a workshop for the handyman, or a place to store your business equipment.

Our sheds come in the most popular sizes for homeowner and professional use. Custom sizes are available and can be priced out on request.

Warranty:	90 day labor and material 30 day material only on kits

## FAQ's

Q: What about site prep? A: Typically, Value Sheds do not require site excavation for building sites within 12" of level. The homeowner needs to supply 2"x8"x16" patio blocks to place under skids and level the shed on your existing grade.

Q: Are permits required? A: If needed, the customer is required to obtain any permits. Value Sheds will provide all structural drawings and specifications upon request.

Q: Do I need to paint my Value Shed? A: Yes. Even with our advanced LP Smart Panel siding, you should still caulk and paint your shed within 60 days of construction. We prefer an exterior acrylic latex paint.

# THE LARGE BUILDINGS

The features below are in **ADDITION** to the *standard* features listed in our main brochure.
